H. M. WHITNEY. July, 1856 1-tf FIRE PROOF ROOFS.

WARREN'S FIRE AND WATER PROOF Roofs have established for themselves in New England and the Canadas a reputation second to none. They have been much longer in use in the Middle and Western States, and testimonials from various parts of the Union, admit their superiority They have been used upon Dwelling Houses of the first class, Ware Houses, Railroad Depots, and Manufacturies, and have

ng properties, to an extent beyond that of any Roof now in use. These Roofs require an inclination of only one inch to the foot. They can be used for a promenade, and for drying purposes; and are made available in case of fire to adjoining buildings. The materials of which these Roofs are composed, are not affected by changes of temperature.

The cost is less than that of any other Fire Proof Roof now in use, and even that of a shingled Roof. These Roofs are not affected by the jar of machinery; and in case of injury, no Roof is so easily and quickly repaired. The Corporation of the City of Montreal, Canada, have by a

special By-Law, made an exception in favor of Warren Roofs, to the Law prohibiting the erection of buildings in the City. And numerous other testimonials from Builders, Insurance Officers, Railroad Corporations and others, which attest the superiority of this Roofing over all others for cheapness, efficiency, and durability combined, may be seen at the Counting Room of C. BREWER 2d. For sale by J. F. B. MARSHALL.

NEW GOODS

CAPT. ROBERT BROWN'S WHALING GUN, PATENT BOMB LANCES

AND GUN HARPOONS. A FTER SEVERAL YEARS LABOR AND Bearded women have been known in every age; experimenting upon whales, on the whaling ground, with one was seen at the court of Czar Peter I., in 1724, his apparatus, combined with the advantages of being a practical whaleman, the Patentee has been enabled to obtain an instrument in form of a Bomb Lance, which for utility and effective- erness of the Netherlands had a heavy beard. ness cannot be excelled.

The attention of Agents and Officers of whale-ships is called to the following testimonials. San Francisco, January 10, 1856. CAPT. R. Brown-Sir: I take this opportunity to inform you that we used those Bomb Lances we bought of you, and ound them to be of great benefit in capturing whales amongst

The first whale that we used the Bomb Lance on was killed in the following manner: -The boat went alongside of the whale and the boat-steerer fired a Bomb into him and then fastened to him with a gig iron: the Bomb was heard to explode, and the whale did not blow after the Bomb exploded. The above-men tioned whale was in the ice, and it is our opinion that we should not have got that whale and many others that we did get, if it had not been for your Bomb Lances, and we fully recommend them to the attention of those fitting out whale ships. Respectfully yours,

THOMAS WALL, Master bark George. HONOLULU, March 17, 1856.
CAPT. ROBERT BROWN—My dear Sir: I used your Bomb Lances, as our boats could not get near enough to use the common hand lance. Yours Respectfully, G. L. Cox, Master whale-ship Magnolia.

Honolulu, March 15, 1856. CAPT. ROBERT BROWN-Dear Sir : I take this opportunity inform you that I used your Bombs on the voyage in the ship Herald, and found them effective in taking whales, and would recommend them to all whalemen, and especially around the ice. I also used the harpoon and got most of the whales by your

Guns and apparatus. Yours Respectfully, ISAAC ALLEN, Master ship Herald. Other testimonials can be seen by calling on the undersigned, Agents, who have the Guns, Bomb Lances and Harpoons for R. COADY & CO., Honolulu.

FOREIGN SUMMARY.

The daily supply of Croton water for New York city is 50,000,000 gallons.

Mr. Thackeray announces a new serial novel to be commenced in October. The Cincinnati Sun speaks favorably of the grape

crop in the west. About 25,000 visitors have been drinking at Saratoga this summer.

The President has been under medical treatment for a slight attack of chills and fever. The Latting Observatory, near the Crystal Palace at New York, was entirely destroyed by fire on 30th

August. Dispatches from Kansas for the past ten days or a fortnight have been full of "wars and rumors of

The number of Shaker Societies now in this country is eighteen, located in seven different States. There are none in any foreign country.

The wooden huts sent from England to the Crimea, at a first cost of from £100 to £200, have been sold to the Russians at £1 per hut. Nearly all the employees in the U.S. Army at Springfield have been discharged on account of the

non-passage of the Army Appropriation bill. Mr. Barnum is said to be going to Europe with the original representative of "Little Eva," Cordelia Howard, to play 'Uncle Tom's Cabin.'

The Northern Railroad in France, carried in 1855 no less than 5,500,000 passengers, equal to about one-sixth of the whole population of France. The Leviathan Steamer, now building on the

Thames, England, (the Great Eastern) is expected at Portland, Me., in May next. E. Merriam, the Brooklyn weather-man, contributes to the N. Y. papers a list of 25 earthquake-shocks that have occurred at sundry times and places the

present year. A Chancery case has recently been decided in one of the English courts, by which John McDougal, of South Boston, a hard-laboring man, receives £15,000

or nearly \$75,000. Prof. Morse has peen invited to the coronation of the Emperor of Russia, and it is stated, has contracted with the Government to establish lines of telegraph

throughout the Empire. Duff Gordon sherry, Bourbon Whiskey,
Old Amontilado Sherry, Menongahela Whiskey, Am. Brandy,
ports from that city amount to \$60,000,000; the imports \$34,000,000. In the year 1851-2, ships entered the port of Calcutta with an aggregate burden of

The Russians have sent in a claim of 400,000 francs for damage done to the Russian Palace at Constantinople, from its been converted into a French hos-

A quantity of treasure valued at \$150,000 was buried by the Russians in the Church of Sevastopol, and they have just dug it up in safety, although the French slept in the edifice for some considerable time.

A wealthy family in New Orleans, so tainted with negro blood on the mother's side that they could not be admitted into the "best society," sold out last year and went to Paris. One of the daughters, it is new reported, has married a foreign ambassador at the court of Louis Napoleon.

Ice is now manufactured at Cincinnati in large quantities by means of ether. This is an exceedingly volitable substance, evaporating rapidly at a low temperature, thereby abstracting so much heat from the water as to speedily convert it into ice. With suitable machinery, it can be made at one-half cent per

The bayonet derives its name from the place where it was first invented, Bayonne, in France, and was first used in battle as a weapon by the French, in the year 1603, proving a novel and efficient arm.

with a beard of immense length. Margaret, Gov-Bowling is an English game, and was common as early as the thirteenth century, especially among the higher ranks. Charles I. played at it, and it formed

a daily occupation for leisure hours with Charles II. The practice and principle of insurance is of great antiquity, and was well-known in the time of Claudius Cæsar, A. D. 43. It is certain that assurance of ships

was practised as early as the year 45 A. D. Two young girls have been taken up in Hartford for stealing whalebone, to make fashionable hooped skirts with. Awful depravity!

LEARNED FLEAS .- There is an exhibition in the New Bank Building, Broadway, well worth seeing. Signor Bertolotte has about 100 Italian Fleas which dance the polka, play on musical instruments, draw Lances in taking a whale, north, the past season, which made | carriages, work at California diggings, fight a duel 250 bbls. of oil. We never could have taken him without said | sword in hand, draw water from a well, tell fortunes and do a variety of feats too numerous to be described; all dressed, harnessed and instructed according to their task. The Fleas are all secured to their respective positions, and perform at the bidding of the Signor. At night they are released; they are fed from the Signor's blood, by allowing them to "perch" upon his hand and suck their fill. They are then placed in their different apartments, all numbered like a well-regulated hotel .- Albany Evening Journal, Sept. 2.

THE LARGEST .- A new steamship called the Vanderbilt, has just been completed in New York, surpassing in speed, power and demensions, anything heretofore constructed in America. Her cost is between five and six hundred thousand dollars; her length is 335 feet. She registers 5,000 tons measurement, and her engines are of five thousand horse power. She is expected to run four hundred miles a day, making the rip from New York to Liverpool in a little over eight days. There are three decks extending from stem to stern, and she will carry five hundred passengers, under legal restrictions. In her construction, strength and safety have been consulted rather than display.

A GUANO EL DORADO EXPLODED .- Some time ago it was announced, through the money columns of the New York press, where every bubble appears to originate, that several islands, not laid down in any map, had been discovered, and that guano existed there in quantities to make fortunes for any nation For sale by the undersigned in any quantity, delivered in bulk | which chose to claim the islands. A stock company was immediately formed, shares issued nominally for \$100, were offered for sale, and sales were effected. The U.S. ship Independence, in its recent cruise in the Pacific, was ordered to take a peep at the islands, with greater dispatch than has hitherto been done at the Sand- and report to the Government. It did so, and here is the report, which is not calculated to stiffen the price of the stock, though it may have that effect upon the company. Captain Mervine says, on approaching the islands:

"Intense interest appeared to pervade all minds, fore and aft, as the ship neared the promised 'El Do-rado' of the merchantile and agricultural interests of our country. The delusion, however, was but trans-THE UNDERSIGNED, formerly doing business op- itory; a nearer view revealed to our astonished vision posite the Custom House, would inform the public, that the whole island, covered with a deep green mantle he has taken the stand lately occupied by Capt. Brown, near of luxuriant vegetation, indicative certainly of the Thankful for past favors, he hopes to merit a continuance of the strength of the soil and heavy rains common to this locality, as also of the worthlessness of the deposit thereon as an article of commerce. The value of guano CARRIAGE SHOP .- The Sub is I believe, determined by the amount of ammonia Mr. Jacobs, will hereafter carry on the which it contains, which is generated by successive Wheelwright Business at the old stand, deposits of bird-lime in rainless districts. That there

of decomposition, the vegetation and great number of birds hovering over it abundantly attest." The Guano island was represented to be more than five hundred miles from the main, and more than two hundred from any land, in a rainless region, and not laid down on any chart. Its position was kept secret until it was described, when it proved to be New Nantucket Island, in latitude 15 minutes north and longitude 176 ° 35 west-a low level island, about three miles in diameter, covered with vegetation GEO. WILLIAMS, | chorage, and four knot current swept to the westward. Treasurer | There is no guano within ten degrees north or south
